Plant and Soil

Contents of Volume 122 1990

Volume 122, No. 1

B. J. Atwell and B. T. Steer, The effect of oxygen deficiency on uptake and distribution of nutrients in maize plants 1
J. A. Shaffer, D. D. Fritton, G. A. Jung and W. L. Stout, Control of soil physical properties and response of *Brassica rapa* L. seedling roots 9
D. A. Wardle and D. Parkinson, Effects of three herbicides on soil microbial biomass and activity 21
D. A. Wardle and D. Parkinson, Influence of the herbicide glyphosate on soil microbial community structure 29
P. Laan, M. Tosserams, C. W. P. M. Blom and B. W. Veen, Internal oxygen transport in *Rumex* species and its significance for respiration under hypoxic conditions 39
A. Hamblin, D. Tennant and M. W. Perry, The cost of stress: Dry matter partitioning changes with seasonal supply of water and nitrogen to dryland wheat 47
J. Ueckert, T. Hurek, I. Fendrik and E.-G. Niemann, Radial gas diffusion from roots of rice (*Oryza sativa* L). and Kallar grass (*Leptochloa fusca* L. Kunth), and effects of inoculation with *Azospirillum brasilense* Cd 59
G. Nowak and J. Nowak, Turnover of ^{14}C-labelled oat residues and small molecular organic compounds in two soils under different levels of mineral nutrition 67
M. Zhang, M. Nyborg and W. B. McGill, Phosphorus concentration in barley (*Hordeum vulgare* L.) seed: Influence on seedling growth and dry matter production 79
S. Inanaga, M. Utunomiya, T. Horiguchi and T. Nishihara, Behaviour of fertilizer-N absorbed through root and fruit in peanut 85
S. Inanaga, E. Arima and T. Nishihara, Effect of Ca on composition of fat body of peanut seed 91
P. Hopmans, Stem deformity in *Pinus radiata* plantations in south-eastern Australia. I. Response to copper fertiliser 97
H. Nayakekorala and H. M. Taylor, Phosphorus uptake rates of cotton roots at different growth stages from different soil layers 105
A. Sengupta and S. Chaudhuri, Vesicular arbuscular mycorrhiza (VAM) in pioneer salt marsh plants of the Ganges river delta in West Bengal (India) 111
R. F. Turco, M. Bischoff, D. P. Breakwell and D. R. Griffith, Contribution of soil-borne bacteria to the rotation effect in corn 115
D. Hahn, M. J. C. Starrenburg and A. D. L. Akkermans, Growth increment of *Almus glutinosa* upon dual inoculation with effective and ineffective *Frankia* strains 121
A. Smolander and M.-L. Sarsa, *Frankia* strains of soil under *Betula pendula*: Behaviour in soil and in pure culture 129
P. S. Kesava Rao, K. V. B. R. Tilak and V. Arunachalam, Genetic variation for VA mycorrhiza-dependent phosphate mobilisation in groundnut (*Arachis hypogaea* L.) 137

Short communications

A. H. Sinclair, L. A. Mackie-Dawson and D. J. Linehan, Micronutrient inflow rates and mobilisation into soil solution in the root zone of winter wheat (*Triticum aestivum* L.) 143
R. W. Weaver and E. C. Holt, Short-term survival of rhizobia on arrowleaf clover seed sown at different depths 147

Volume 122, No. 2

G. Wadsworth, H.M. Reisenauer, D. R. Gordon and M. J. Singer, Effects of length of forest fallow on fertility dynamics in a Mexican ultisol 151
R. K. Hynes and L. M. Nelson, Interactions among nitrogen-transforming bacteria and nitrogen-fixing *Pisum sativum* L. in laboratory sand columns 157
C. Sonneveld, J. van den Ende and S. S. de Bes, Estimating the chemical compositions of soil solutions by obtaining saturation extracts or specific 1:2 by volume extracts 169
M. A. Shaddad, A. F. Radi, A. M. Abdel-Rahman and M. M. Azooz, Response of seeds of *Lupinus termis* and *Vicia faba* to the interactive effect of salinity and ascorbic acid or pyridoxine 177
B. Mishra and L. L. Srivastava, Physico-chemical characteristics of humic substances of major soil associations of Bihar (India) 185
I. M. Emmer and A. Tietema, Temperature-dependent nitrogen transformations in acid oak-beech forest litter in the Netherlands 193
H. K., Murwira, H. Kirchmann and M. J. Swift, The effect of moisture on the decomposition rate of cattle manure 197
T. M. Abu-Sharar and M. B. Zughul, MULTCOMP: A computer program for preparation and chemical speciation of multicomponent saline solutions 201
A. B. Manna and P. K. Singh, Growth and nitrogen fixation of *Azolla pinnata* and *Azolla caroliniana* as affected by urea fertilizer and their influence cn rice yield 207
J. Krikun, J. H. Haas, J. Dodd and R. Kinsbursky, Mycorrhizal dependence of four crops in a P-sorbing soil 213
M. Arshad and W. T. Frankenberger, Jr., Response of *Zea mays* and *Lycopersicon esculentum* to the ethylene precursors, L-methionine and L-ethionine applied to soil 219
J. C. Dodd, I. Arias, I. Koomen and D. S. Hayman, The management of populations of vesicular-arbuscular mycorrhizal fungi in acid-infertile soils of a savanna ecosystem. I. The effect of pre-cropping and inoculation with VAM-fungi on plant growth and nutrition in the field 229
J. C. Dodd, I. Arias, I. Koomen and D. S. Hayman, The management of populations of vesicular-arbuscular mycorrhizal fungi in acid-infertile soils of a savanna ecosystem. II. The effects of pre-crops on the spore populations of native and introduced VAM-fungi 241
R. W. Bell, D. G. Edwards and C. J. Asher, Growth and nodulation of tropical food legumes in dilute solution culture 249
A. Fyson and A. Oaks, Growth promotion of maize by legume soils 259
A. A. Mehadi, R. W. Taylor and J. W. Shuford, Prediction of fertilizer phosphate requirement using the Langmuir adsorption maximum 267
R. Gabbrielli, T. Pandolfini, O. Vergnano and M. R. Palandri, Comparison of two serpentine species with different nickel tolerance strategies 271
J. L. Ahlrichs, M. C. Karr, V. C. Baligar and R. J. Wright, Rapid bioassay of aluminum toxicity in soil 279
F. G. Adriaanse and J. J. Human, The effects of nitrate: ammonium ratios and nitrapyrin on the nitrogen response of *Zea mays* L. under field conditions 287

Short communications

M. Takebe, T. Yoneyama, K. Inada and T. Murakami, Spectral reflectance ratio of rice canopy for estimating crop nitrogen status 295
Inderjit and K. M. M. Dakshini, The nature of the interference potential of *Pluchea lanceolata* (DC) C B Clarke (Asteraceae) 298
